Sahab Soubih

Strategy & Transformation Consultant

Riyadh, Saudi Arabia | +966 53 158 8960 | sahabsaleeh@gmail.com | linkedin.com/in/sahab-soubih | Saudi National

PROFESSIONAL SUMMARY

Strategy and transformation consultant with 5+ years across Vision 2030 giga-project, government, mega-event, and PIF portfolio-company environments. Advises C-suite and CEO offices on strategy execution, operating models, enterprise planning, and portfolio governance, and carries work end to end — from stakeholder data and diagnosis, through solution design, to implementation, governance, and knowledge transfer. Built first-of-their-kind enterprise frameworks (Annual Operating Plan, target operating model, EPMO) in greenfield settings, led stakeholder programs reaching 189,000+ people, and integrates AI-enabled ways of working to accelerate insight generation and delivery.

CORE COMPETENCIES

- Strategy Execution & Planning
- Annual Operating Planning (AOP)
- Change & Transformation
- Capability Building
- Target Operating Model Design
- Performance Management & KPIs
- Stakeholder Data & Analytics
- Technology Portfolio Management
- EPMO & Portfolio Governance
- CEO & Executive Advisory
- Business Case Assessment
- AI-Enabled Ways of Working

PROFESSIONAL EXPERIENCE

North Highland — Riyadh, Saudi Arabia **Jan 2025 – Present**

Consultant

Strategy-execution and transformation engagements for government, mega-event, and PIF portfolio-company clients, working directly with C-suite and senior leadership.

Executive Advisory & Target Operating Model — PIF portfolio company Aug 2026 – Present

- Advise the CEO's office, preparing decision packs, board and executive-committee pre-reads, and briefings that frame options, trade-offs, and recommendations for senior decisions.
- Assess proposed initiatives and business cases for strategic fit, feasibility, and delivery readiness, and structure the governance required to move approved initiatives into execution.
- Develop a CEO-tailored target operating model anchored in the business plan's growth aspirations, designed to deliver results specific to the company's context rather than a generic, benchmark-driven model.

Technology Portfolio Management — global mega-event organizing entity Jun 2026 – Present

- Built the EPMO lifecycle and framework — governance, stage gates, and reporting templates across project, portfolio, and initiative levels — alongside a Strategic Risk Management framework integrated with planning and delivery.
- Designed the taskforce route and activation principles for enterprise technology demand management and intake, and supported the team through launch.

Enterprise Planning, Operating Model & EPMO Design — greenfield context Aug 2025 – Jun 2026

- Designed the organization's first enterprise-wide Annual Operating Plan (AOP) framework — methodology, governance process, and full suite of planning and reporting templates — and led the first cycle across all divisions, consolidating strategic objectives, departmental priorities, financial allocations, and funding plans into a single organizational baseline.
- Developed the target operating model for the Strategy, EPMO, and Business Excellence function, calibrated to mandate, maturity, and resourcing, with a three-year phased implementation roadmap and KPI and target mapping.
- Established departmental and enterprise-wide KPIs using best-practice target-setting methodologies, creating the performance-management logic and tracking mechanism.
- Led knowledge transfer and capability building for project managers on the enhanced EPMO framework, governance standards, and core delivery disciplines, supported by a structured communications and engagement plan that drove adoption of the new practices.

Transformation Program Implementation — government, healthcare sector Jan 2025 – Aug 2025

- Led the transformation office (TMO) customer-centricity workstream end to end: a four-step methodology spanning data collection, analysis, and recommendation prioritization across 100K+ stakeholders and 217,760 data points, converting findings into a prioritized set of executable interventions.
- Directed stakeholder data initiatives engaging 189,000+ stakeholders (7,500 responses), from survey design and statistical validation through AI-enabled quantitative (eNPS, Likert) and qualitative analysis, delivered as Power BI insight reporting to program leadership.

- Led full-cycle design and implementation of a change network of 2,000+ voluntary change agents under a formal governance model, surpassing global benchmarks for change-network scale.
- Managed the end-to-end talent acquisition cycle for the program's delivery team — selection process design, assessment criteria, structured interviews, stakeholder coordination, and onboarding readiness.

NEOM — Saudi Arabia **Apr 2021 – Dec 2024**

Senior Project Analyst *Oct 2023 – Dec 2024*

- Owned integrated project trackers and schedules (MS Project, Excel) across multiple workstreams — milestones, dependencies, and risks — and analyzed performance to surface bottlenecks and inform leadership decisions on scope, resourcing, and priorities.
- Partnered with Finance to forecast project costs, embed them in the annual budget, and close annual accruals; led procurement workstreams with Procurement and Finance, including supplier identification, partnership assessment, and key documentation.
- Designed organizational learning structures and digital content on LMS platforms to support professional development and adoption of new processes.
- Administered project management tooling (Jira) and ran weekly and monthly stand-ups, consolidating trackers and reports to keep stakeholders aligned on progress and risk.

Business Specialist *Oct 2021 – Jul 2023*

- Managed a multi-million-dollar procurement budget spanning 60+ supplier relationships end to end, including closure of accruals and records.
- Delivered operational improvements that raised departmental efficiency by 20% and streamlined logistics.
- Defined business requirements for a 45-member team, delivering early project phases within tight timelines.
- Organized 80+ workshops and gatherings in Saudi Arabia and internationally, and served as single point of contact (SPoC) for corporate communication.
- Supported C-suite executives on key projects — monitoring budgets and schedules, hosting stakeholder visits, and managing the department's content database.

Intern *Apr 2021 – Oct 2021*

- Built and managed a 200+ document content database used by senior leadership, and drafted biographies for the full NEOM leadership team.

Ascend Healthcare Solutions — Riyadh, Saudi Arabia **Jan 2021 – Apr 2021**

Project Support Coordinator

- Supported project managers with scheduling, documentation, and stakeholder communication, and recorded meeting minutes and action items across project teams.

EDUCATION
